LITTLE BOY IS BURNED TO DEATH

Roy Newman, of Upper Bermudian, severely Burned, Dies Two Days Later. Had been Playing in Kitchen.

The funeral of Roy Newman, who died Sunday morning from burns received on Friday was held this morning at Ground Oak church, Rev. Harvey Bickle conducting the services.

The little fellow was playing at the home of his grandfather, Amos Slaybaugh at Upper Bermudian when the accident occurred. He was alone in the kitchen, his mother being in a nearby room when his clothes in some unknown manner caught fire. When his mother returned she found her little boy enveloped in flames and quickly getting a vessel with water dashed it over him and poured water into his mouth.

She finally succeeded in extinguishing the flames but not before almost all of the clothing had been burned from his body. Doctors Myers and Cashman, of York Springs, were summoned and did all in their power to relieve the little sufferer. He lingered until ten o'clock Sunday morning. Had he lived until December 5 he would have been four years old.

The boy was a bright little fellow and the family have the sincere sympathy of their many friends.

FRESHMEN DISCARD

YELLOW BUTTONS

Those little green caps which the College Freshmen have been wearing are now minus the big yellow buttons which adorned the tops of the headgear—all on account of the first year men's victory over the Sophomore football team Tuesday afternoon by a score of 17 to 2.

The game was played on a muddy field and as has always been the case developed a big lot of enthusiasm, the people caring little for the wintry blasts which swept across the gridiron as the young warriors struggled for supremacy. Adams County's teachers witnessed a large part of the game as a sort of dessert after an afternoon's feast of rather heavy food.

By being active and alert the Freshmen scored three touchdowns, each one being the result of taking advantage of their opponents' misplays. The first touchdown was made on a recovered blocked kick, the second on an intercepted forward pass and the third on a fumble. The Sophomores secured their two points when Myers was thrown back of the goal line as he was about to punt.

The punting of Myers proved an important factor in the game and gained a great deal of ground for the Freshmen. The game had plenty of interest for spectators and the rooters for the two teams were very active.

The rules adopted by the student body decree that if the Freshmen win one contest in debate or athletics they may take off the yellow buttons and that if two such contests are won the caps may be discarded entirely.

EIGHTH'S BAND TO RE-ENLIST

The band of the Eighth regiment, National Guard of Pennsylvania, located in Carlisle, will, in all probability, re-enlist in the regiment and again wear the kahki and follow the stars and stripes. There was a smoker held by the band, and the matter was fully discussed, the members expressing their satisfaction at continuing as a regimental musical organization.

Colonel J. B. Hutchinson, of the Eighth regiment was present from Harrisburg, and made a speech, complimenting the organization on its excellency, and saying it was the best band the regiment has had in many years. Sergeant W. M. Kronenberg, director of the band; James W. Eckels, Esq., treasurer of the organization, and Herman Jaeger, active director, and John T. Sheaffer and John Lau, members, also spoke, voicing the sentiment of continuing in the ranks.

This is interesting reading for the members of the Gettysburg who hope to be admitted to the Guard.

WOLF-MICKLEY WEDDING MONDAY

C. Milton Wolf and Miss L. Virginia Mickley Married in Little Church around the Corner. Surprise to Friends.

Miss Laura Virginia Mickley, of Carlisle street, and C. Milton Wolf, of York street, were married at four o'clock Monday afternoon in New York City. The ceremony took place in "The Little Church around the Corner." Notice of the wedding was received on Tuesday by relatives.

To the many friends of the bride and groom the rumor of their wedding came as a surprise, the first intimation being received when letters came Monday indicating that the wedding was to take place. It was not until the following day, however, that definite news of the wedding was received.

The bride is a daughter of Mr. and Mrs. Morgan Mickley and for many years has been one of the most courteous and obliging clerks at the store of G. W. Weaver and Son. Mr. Wolf was for a number of years the local agent of the United States Express Company. Last year he purchased the Wolf warehouse and has since been successfully engaged in business there.

After a brief trip through New York and Pennsylvania Mr. and Mrs. Wolf will return to this place, expecting to arrive in Gettysburg the latter part of the week.

HANDSOME BUILDING

NEARS COMPLETION

The handsome new \$10,000 refectory at the Theological Seminary is nearing completion and is one of the most complete structures in Gettysburg.

The building is of brick and brownstone and was designed by J. A. Dempwolf, of York, who has been the architect for a large number of the Seminary and College buildings together with several town residences.

The principal room is on the north side of the first floor which will be used as the dining hall. It is large enough to accommodate one hundred and twenty persons. A handsome fireplace at the one side and an attractive lighting arrangement add to the beauty of the room.

A model kitchen complete in equipment and in every detail forms another interesting part of the refectory while a large refrigerator room and a spacious basement are other portions which will be used extensively. The Seminary students are now eating in three rooms in the basement until the large dining hall is entirely completed which will be in a short while.

Those who conduct the building live in it, the second floor having a number of rooms. The dining hall is run on the club plan, the students paying for the provisions.

KILLS A BUCK

The deer hunters who have not been meeting with the rewards they believed their long tramps and their patient standing guard at "crossings" deserved, took new heart, Tuesday morning, because of the snow and the accompanying ease with which the game could be tracked.

Not many met with much luck, however. They saw plenty of deer tracks but came up with few deer.

Charles Wile, Mont Alto, however, did get a deer. He was hunting on Rocky mountain, east of Mont Alto, when he came upon a 3-prong 150 pound buck and brought it down. He was hunting alone.

Hunters everywhere complain of the lack of trophies this season.

MINISTER WILL TRY NEW WORK

Minister at Fairfield, Fountain Dale and Orrtanna to Work in Western Town in Congregation of Several Denominations.

The Rev. Ivan L. Snyder, pastor of the Methodist Episcopal churches at Fairfield, Orrtanna, Fountain Dale, Ronzerville and Mont Alto, received a telegram from Bishop Anderson Monday afternoon apprising him of the bishop's consent to his transfer to the West Wisconsin conference to work out a new problem proposed by the Inter-Church Federation in the town of Hixton, Wisconsin.

Hixton is a town of about 600 inhabitants in the centre of a rich farming community. The town was founded about 90 years ago and its inhabitants are chiefly Americans.

A union church, supported by members of the various Protestant faiths and men of the congregational plan was built, but the people realized the disadvantages of independence and decided to connect themselves with one of the great denominations. The Inter-Church Federation is striving to avoid "over churching" the new towns of the West and agreed that Hixton should be given to the Methodists. The church property was therefore leased to the Methodist Episcopalians with the understanding that there shall never be any other Protestant denomination in the town.

Bishop Berry, who presided over the recent session of the West Wisconsin conference, decided that Mr. Snyder was the man to take up this work. He is a graduate of Dickinson College and Drew Theological Seminary. He is also a member of American Society of Sanitary and Normal Prophylaxis of New York, of the Bible League of North America and a corresponding member of the Lake Mohonk Conference on International Arbitration.

In connection with the work at Hixton, Mr. Snyder will be pastor of the Methodist Episcopal church at Sechlerville, a town of 300 inhabitants, one mile from Hixton. There also the Methodists have the only church in the town.

Mr. Snyder expects to remove from Ronzerville to his new charge the latter part of this week.

UPPER BERMUDEAN

Upper Bermudian, Nov. 30—Crist Pittenturf, wife and daughter, Beatrice, spent last Saturday in Carlisle.

Miss Gifford Hummelbaugh, of Fairfield, is visiting Charles Slaybaugh and wife.

A Thanksgiving dinner was held at the home of J. W. Slaybaugh. Those present were, Edward T. Slaybaugh, of Philadelphia, Addison Leep and wife, of Hunterstown, Earl Deel, wife and two children, of Hunters Run, Orpheus Golden, wife and two children, Charles Slaybaugh and wife, and Adam T. Slaybaugh and sister, Miss Sadie.

Curtis Golden and family spent last Thursday and Friday as the guests of John W. Meals and wife, of Mt. Holly Springs.

CHANGE IN REGISTRY

The Postoffice Department hopes to save \$500,000 annually through an order issued by Postmaster General Hitchcock, which will become effective on December 1. The practice of reenclosing registered mail in special envelopes before sending it from the office of origin will be discontinued after the date, which the Postmaster General believes will bring about an enormous saving in the cost of the envelopes, the printing and clerical labor. The new order is also expected to save time in the dispatch of registered mail.

LECTURES AT THE INSTITUTE

Teachers Hear Practical Talks by Able Instructors. Dr. Willis on Abraham Lincoln. Dr. Ellis and Dr. Gordinier.

Three interesting addresses marked the Tuesday afternoon session of the Teachers' Institute.

Dr. Charles C. Ellis made the first address on "The School and the Home" bringing out with great clearness and force the responsibility of those who have in their care the training and teaching of the child. Dr. Ellis' address was closely followed by a large audience.

Dr. Willis' subject was "Lincoln as a Literary Man" though he did not confine himself to this particular phase of the martyr-president's life. He traced his life from early boyhood and closed his address by reading several bits of composition by Lincoln.

Dr. Gordinier occupied the last period of the afternoon with an address on "The Teacher's Creed." He outlined the necessary trust which the teacher must have in his pupils and the various relations and responsibilities which must be taken into consideration in dealing with the children.

The evening lecture was by Dr. Byron C. Platt on "American Morals."

This morning before the regular session Dr. Ellis addressed a meeting of the county principals on "Socrates." The opening address of the morning was made by Dr. Willis whose subject was "Money." Dr. Ellis' subject was "The School and the State" and Dr. Gordinier gave his lecture on "The School a Social Centre." The entertainment this evening will be the New Zealanders whose program consists of songs and other features peculiar to their country.

ARENDTSTVILLE

Arendtsville, Nov. 30—Last Saturday the house and lot of Mrs. Susanna Lupp, deceased, were sold at public outcry to Mrs. Harry Thomas, of this place for \$810.

Last Friday Amos D. Sheely lost a valuable cow by death. She had been hurt inwardly.

Abie L. Carbaugh and David Thomas each lost a fat hog by death.

Tuesday morning we had about two inches of snow which was much appreciated by the rabbit hunters and they were out in full force. Quite a lot of rabbits were shot.

Master Myron Knous, son of John A. Knous, shot a rabbit that weighed five pounds. It was the first one he ever shot and he was much elated with his prize.

Miss Elsie Lerew, of York Springs, is a visitor at the home of her grandmother, Mrs. Augustus Lerew.

Mr. and Mrs. Charles E. Coe and son, of Chambersburg, were recent guests at the homes of Mr. and Mrs. Harry W. Hartzell and Mr. and Mrs. William H. Coe.

Miss Rose E. Small and Miss Theresa Hendricks, of York Springs, were the recent guests of Mr. and Mrs. M. H. Hughes in this place.

Mr. and Mrs. Daniel Black, of Fayetteville, spent last Sunday at the home of Mrs. S. O. Reed in this town.

Mr. and Mrs. Roland Minter, of Newark, N. J., spent a day at the home of Dr. and Mrs. Merriman, in this place.

EMANUEL DILLER

Emanuel Diller, a well known citizen, of Hanover, died at his home at 8 p. m., Monday, November 28, aged 80 years, 5 months and 1 day.

He is survived by one sister, Miss Eliza Diller, with whom he resided.

Mr. Diller served as toll gate keeper for the McSherrytown and Hanover Turnpike Company for a period of 28 years, and resigned three years ago on account of ill health. He was honest and conscientious in the discharge of his duties, as in all his actions of life. He was widely known in the lower end of Adams County and surrounding neighborhood. In his early life Mr. Diller served on construction gangs and helped to build railroads in some sections of the county.

THE WOLF

This evening at Walter's Theatre promises to be a notable event, the occasion being the first presentation in this city of "The Wolf," the play that set all New York and Chicago talking. "The Wolf" is from the pen of Eugene Walter, author of "Paid in Full," "The Easiest Way," "Boots and Saddles," but is so different from the usual run of plays that it leaves a distinct impression of its own upon the mind of the spectator. The story and theme is new. There is an abundance of bright dialogue, droll humor and the pathos and sentiment of the play are not of the artificial sort.

Offers to Show Railroads How to
Save \$1,000,000 a Day.

READY TO TEACH RAILWAYS

Brandeis to Show How Lines Can Save \$1,000,000 a Day.

Washington, Nov. 30. — Louis D. Brandeis is willing to show the railroads of the country how they can save \$1,000,000 a day.

Mr. Brandeis, who is counsel for the Atlantic Seaboard Shippers in their opposition to the proposed increases on freight rates by the eastern trunk lines, answered the challenge of several western railroads to show how this could be done.

They sent an offer to Mr. Brandeis, saying they would employ him at his own salary if he could make good his contention that American railroads could save \$300,000,000 a year.

Mr. Brandeis telegraphed that without any charge to them he would be glad to meet and point out to a conference or conferences of eastern and western railroad presidents how such a saving could be effected.

300 MEN BLOWN TO SEA

Persian Deck Workers Doomed by Caspian Storm.

Astrakhan, Russia, Nov. 30. — During a sudden tempest in the Caspian sea a landing stage, on which were 300 Persian deck workers, was dragged loose from its moorings and swept out to sea.

The storm was so violent that attempts at rescue were futile, and all hope that any of the men will be saved has been abandoned.

Scores of ships, several with their crews on board, were sunk at their moorings at different Caspian coast towns.

Seven towns along the coast were flooded, the inhabitants in hundreds of cases being forced to take refuge in haystacks. The plight of the sufferers is pitiable, as intense cold has added to the general misery.

AMPUTATES HIS OWN HAND

Virginia Farmer, Hurt in Corn Shredder, Uses Razor and Knife.

Richmond, Va., Nov. 30. — Cutting off his own hand with a razor after it had been crushed in a corn shredder, J. Bruce Vaughan, of Eureka Mills, Charlotte county, Va., carefully bandaged the stump and calmly awaited the arrival of a surgeon to put the finishing touches to the operation.

Vaughan while at work on the farm got his left hand caught in a corn shredder. The machine mangled the member horribly as far as the wrist. Medical assistance was not to be had for hours. Going to his home, Vaughan took his razor and performed the operation.

BELMONT SCORES GRAFT PROBERS

Says Their Method Amounts to Persecution.

DENIES CORRUPTION FUND

Chairman of Jockey Club Denies That \$500,000 Was Raised to Fight Anti-Racing Bill in New York.

New York, Nov. 30. — August Belmont, chairman of the Jockey club, took the stand in the session of legislative graft inquiry and positively denied that there was any money raised to defeat the Agnew-Hart bills by improper means.

Mr. Belmont offered to throw open the books of the Jockey club to the committee and explain every transaction set forth.

Mr. Belmont denounced the method of conducting the inquiry in respect to the alleged attempt to bribe legislators. He said the procedure of impugning false motives to reputable citizens upon the unsupported testimony of irresponsible persons as to a mythical corruption fund of \$500,000 and conspiracy dinners that never took place, was not only absurd, but that it amounted to persecution.

Defend Harry P. Whitney.

Mr. Belmont declared that he had been placed in the light of seeming to avoid giving evidence before the committee, when, as a matter of fact, he was ready and willing to appear at any time. He characterized as unfair the aspersions that have been cast on Harry Payne Whitney, who went to England to attend the international polo match—a matter of great importance to him.

Mr. Belmont declared that none of the racing associations and no individual had been assessed to supply a fund to be used for improper purposes at Albany. He said that every penny spent in fighting the Agnew-Hart bills was expended legitimately and that neither he nor his associates had any thought of improper purposes.

"It appeared here that \$5700 was levied upon the Coney Island Jockey club for future legal expenses. By whose authority was that done?" asked Mr. Bruce in opening the examination.

"That couldn't have been a proper entry," said Mr. Belmont. "At times there have been informal conferences when the racing men have been subject to persecution, as in this instance. Counsel have been employed to protect their interests, and I presume, that entry must have referred to something of this kind."

"You speak of persecution, as in this instance. What do you mean?"

Investigation "Ridiculous."

"I mean just such things as this investigation; it is ridiculous to call me here to question me about something it ought to be presumed I know nothing about. I want to ask this committee when the subpoena for me was issued. It was served in a very roundabout way, and I don't think I was treated properly. If I had not been in my office, I would not have been subpoenaed."

"It looks as though you are trying to evade me instead of my trying to evade you. If I had not been at my office when the process server came, I would have been held up to public ridicule, as some of my associates now are."

"So your persecution," said Mr. Bruce, "consists in the fact that you were regularly subpoenaed? By the way, this senator you spoke of, did he tell you that he had been improperly approached?"

"Oh, no," said the banker.

TWO MORE STATES LARGER

Maryland and Nebraska Show Increases in Their Population.

Washington, Nov. 30. — The population of the state of Maryland is 1,284,450, according to statistics of the thirtieth census. This is an increase of 106,406, or 9 per cent over 1,188,044 in 1900. The increase from 1890 to 1900 was 145,654, or 14 per cent. The population of Nebraska is 1,192,214, according to the census statistics. This is an increase of 125,914, or 11.5 per cent over 1,066,300 in 1900. The increase from 1890 to 1900 was 7390, or 0.7 per cent.

Fish Bite Nearly Kills Sailor.

Boston, Nov. 30. — Favored by a gale of wind, Captain Nelson, of the fishing schooner Reliance, was able to land Thomas Key, a member of his crew, here before the sailor bled to death from a wound made by the bite of a fish. While the Reliance was on the Georges Bank, an angel fish, a species of shark, which had been caught in a trawl, bit Key's right hand, the sharp teeth almost severing it at the wrist.

Carried Off Their Victim to Rob Him.

Chicago, Nov. 30. — Two men who held up and robbed Charles Moe, a contractor, took no chances of interruption by the police. They bundled their victim in ropes and burials, threw him into a car, beat him into insensibility and carried him far out of the city. When he recovered consciousness he lay in the gutter beside a country road six hours before found.

Owing to the fact that they are usually reared under quite artificial conditions especially favorable to the development of tubercular tendencies, pure bred cattle bought at the average sale should not be paid for unless a guarantee is forthcoming that they are free from the disease. We have lately run across several instances where infected animals of this type were secured and the price paid because the above precaution was not exercised. A little care taken at the right time would have saved both trouble and expense.

HUSBAND LETS WIFE GO

Refuses to Prosecute as She Runs Away; Will Seek Divorce.

Paterson, N. J., Nov. 30. — Mrs. Thomas A. Noon and Robert C. Garry, who came here from Wilkes-Barre, Pa., were escorted to the Erie station by Detective Captain John Tracy, and the couple boarded an eastbound train, declaring that they were bound for Manhattan.

Mrs. Noon and Garry were found in a boarding house at 171 Van Houten street by Captain Tracy and the husband of the woman. At the time the two were partaking of supper.

When the woman and Garry were arraigned before Recorder Carroll, in the police court, Noon said he did not wish to prosecute the pair, and that he intends to start a divorce suit. He took charge of their seven-year-old daughter Marcella, and started for home, while Recorder Carroll ordered the couple out of town.

GENERAL ELLIOTT RETIRES

Commandant of Marine Corps Reaches Age Limit.

Washington, Nov. 30. — Major General George P. Elliott, commandant of the Marine Corps, was placed on the retired list today, when he reached the statutory age limit of sixty-four years.

General Elliott has been commandant of the corps since Oct. 3, 1903. No permanent successor will be appointed until congress has had an opportunity to dispose of legislation affecting the Marine Corps which will be proposed by Secretary of the Navy Meyer.

In the meantime Colonel William P. Biddle will assume charge of the administration of the corps.

RICH MERCHANT

ACCUSED OF ARSON

Charged With Setting Fire to Rival's Warehouse.

West Chester, Pa., Nov. 30. — The arrest of Ulysses G. Bullock, the wealthy Kelton merchant, on the charge of having set fire to the warehouse of Frank G. Evans, in that village, on the night of Nov. 7, has caused a sensation.

Bullock owns a large store at Kelton, is one of the richest merchants in the county and has always had an unblemished reputation. He is married and has three children. He was raised as a Friend, his father, the late Eli Bullock, being a strict adherent of the Friends' Society.

The district attorney announced that Bullock will be given a further hearing, when Detective Charles Franklin, of Philadelphia, who had the accused merchant arrested, will show what evidence he has in hand.

Bullock was greatly annoyed when the big warehouse was built last summer near his store, and the neighbors, knowing he was greatly distressed, added to this by telling him Evans was going to start a rival store in the new building. The Bullocks have been in business at Kelton for more than half a century, and they have never had any competition.

Steel Trust to Pension Employees.

New York, Nov. 30. — The United States Steel corporation is to announce a pension plan for employees between sixty and seventy years old, which will become effective Jan. 1. Employees in the service twenty years can retire at the age of sixty, and when after twenty years of service they reach the age of seventy a compulsory retirement clause operates.

Wright Brothers Sue White.

New York, Nov. 30. — Wright Brothers filed in the United States circuit court a suit against Claude Grahame White, the English aviator, alleging infringement of the Wright patent. The complaint says that Grahame-White imported several machines into this country, among them a monoplane and a biplane which embody the inventions covered by the Wright patent.

Express Safe and Money Recovered.

Muskogee, Okla., Nov. 30. — The safe with \$16,000 stolen from the Wells Fargo Express company here on Saturday has been found and all of the money recovered. The safe, found under the porch of an abandoned house, had not been opened.

The Famous Rayo

Gives the Best Light at Any Price

When you pay more than the Rayo price for a lamp, you are paying for extra decorations that cannot add to the quality of the light. You can't pay for a better light, because there is none. An oil light has the least effect on the human eye, and the Rayo Lamp is the best oil lamp made, though low in price. You can pay \$5, \$10, or \$20 for some other lamp, and although you get a more costly lamp, you can't get a better light than the white, mellow, diffused, unflattering light of the low-priced Rayo.

Has a strong, durable shade-holder. This season's burner adds to the strength and appearance. Made of solid brass, nickel-plated, and easily polished.

One of the most important labors of the men employed in the forest service is the gathering and planting of the seeds of the several varieties of conifers. So far this year about 300,000,000 tree seeds have been planted.

While some of this seed is bought, a large portion of it is gathered by these men. The cost varies from 35 cents to \$1 per pound, and the work is usually done by groups of three or four men, who work together. While much of the seed is secured in sections where lumbering operations are going on, quite a portion is gathered by climbing and plucking the cones by hand or snipping them off with pruning shears. After being gathered at a central point the cones are dried in the sun or by means of artificial heat, which they open and the seeds fall out. Hand work is sometimes resorted to in opening the cones, and this is both slow and tedious. The seeds are finally separated from the wings and dirt by putting them through a fanning mill.

Baldheaded Men

Ignorance of the Hair Cause Much Baldness among Men

Of course you and every intelligent reader of the Gettysburg Times knows that dandruff is caused by a germ.

Dr. Sagerbund, the great French physician, proved this beyond a doubt. In order to rid your scalp of filthy dandruff you must kill the germ. There is a hair dressing called Parisian Sage which is now sold in every town in America, that is guaranteed to eradicate dandruff, stop falling hair, splitting hair and scalp itch in two weeks, or money back.

If you have dandruff get a large 50 cent bottle today and rid yourself of it. Remember that if dandruff germs are not destroyed in time, the hair will surely fall out and baldness will follow.

Here's proof of what Parisian Sage has done; it will do more. It is the finest hair grower and hair dressing in the world, and people who use it regularly will never grow bald. Mrs. John Stoner, Evansville, Ind., writes on June 2, 1910:

"I used Parisian Sage and found it very successful; it removes dandruff and gives the hair life. I only used two bottles. I know it is a cure for dandruff." I know it is a cure for dandruff.

Large bottles 50 cents at The People's Drug Store and druggists everywhere. The girl with the Auburn hair is on every carton.

Rheumatism in Ankles

One Bottle of Rheuma Cured Woman Who Could Not Walk.

Marvelous as this story may seem, it is absolutely true; but this is only one of the many almost magical cures that Rheuma is performing these days.

Mrs. Gertrude Kozel, Smithfield, Pa., wrote on Feb. 14, 1910: "I had Rheumatism for over a year; it settled in my ankles and I could not walk. I have taken one bottle of Rheuma and do not have any more pain, and I can again walk at will."

People's Drug Store will sell any reader of the Gettysburg Times a bottle of Rheuma for 50 cents, and guarantees it to cure any case of any kind of Rheumatism or money back.

Gratifying relief comes in a day, because Rheuma acts at one time on the Kidneys, Stomach, Liver and Blood, and starts to rid the entire system of poisonous Uric Acid at once.

TAFT ORDERS CUT IN ALL ESTIMATES

Determined Plans For Economy Shall Prevail.

NO MORE "PORK BARRELS"

The President Points Out to Cabinet Officers Where Pruning Knife Could Be Used to Advantage.

Washington, Nov. 30. — President Taft is determined that his plans for economizing in the government shall prevail. He is becoming a veritable "watchdog of the treasury" to effect a real saving in the various departments.

The president informed his cabinet officers, after scrutinizing the final draft of the estimates of the various government departments for the fiscal year beginning July 1, 1911, that there must be a further and deeper cut in them. They would not do in their present form, he told his ministers emphatically.

In response to the urgent demands of the president, the heads of the various departments already had held their estimates down to what they considered rock bottom figures. But the president pointed out a number of places where he declared the pruning knife could be used to advantage.

The president started last year the policy of giving personal attention to the estimated expenditures of the government, declaring that the best way to wipe out the deficiency in the treasury was to reduce the outgo of public funds. He believes he made considerable headway in holding down expenditures for the current year, but hopes to make a still greater stride toward economy in 1911.

That he might take up departmental estimates, the president ordered a postponement of the regular cabinet session. He hopes to be able to submit the greater part of his message for consideration.

Representative Alexander, of New York, chairman of the house committee on rivers and harbors, and General Dixey, chief of engineers of the army, and the three District of Columbia commissioners participated in a conference which was of several hours' duration.

Mr. Alexander announced at the close that the river and harbor bill to be reported to congress at the coming session would carry about \$30,000,000, and added:

"It will be difficult to find in the proposed bill any evidence of the so-called 'pork barrel' or 'dribbling policy.' It will be purely a business measure, based upon the most careful work of the engineering department and satisfactory to congress, it is believed, because it will provide for all of the projects which demand attention during the next fiscal year."

FOOTBALL PLAYER DIES

Received Internal Injuries in Sharp Tackle.

Pottsville, Pa., Nov. 30. — William Hancock, aged twenty-three years, of Minersville, died as the result of injuries received while playing football.

Hancock was a member of the Minersville eleven and was a fast athlete, playing behind the line. Following a sharp tackle, in which he was heavily thrown, Hancock failed rapidly in health until his death, which was due to an abscess which developed from the internal injury he sustained.

SEA WASHES UP FISH

Ocean City Residents Having a Feast Provided by the Ocean.

Ocean City, N. J., Nov. 30. — Large quantities of fish are being washed up on the beach here, and many residents are enjoying what are considered great feasts. Others catch the fish and sell them for 7 and 8 cents a pound.

The fish come in close to shore to feed and are washed up on the strand, wriggling in a much alive shape, but are easily caught.

Banker Gets 10 to 18 Years.

Louisville, Ky., Nov. 30. — August Ropke entered a plea of guilty to five counts of the indictment charging him with embezzlement of the funds of the Fidelity Trust company. The total of his defalcations was \$1,490,000. The amount was reduced by recoveries to \$1,190,000. Ropke was given a sentence of from ten to eighteen years in the penitentiary, this penalty covering all his offenses. Ropke was secretary of the company's banking department.

Senator Lodge Confident.

Boston, Mass., Nov. 30. — The managers of the campaign for re-election of Senator Lodge expressed themselves as so well pleased with the situation that Senator Lodge discontinued his headquarters at the Hotel Touraine and prepared to leave for Washington.

Electrocuted in Bath Tub.

Milwaukee, Wis., Nov. 30. — Edwin L. Uhrig, twenty-three years old, son of a wealthy coal dealer, was found dead in a bathtub in his home. He had been electrocuted by an electrically operated vibrator with which he was massaging his body.

That the gospel of a better agriculture which is being preached in the southern states is bearing fruit is shown in legislation recently passed by the Kentucky legislature authorizing the establishment of a new and fully equipped agricultural college, headed by Dr. M. A. Scoville, who will be supported by a staff of thirty-nine professors. The benefits resulting from such an institution, wisely and intelligently managed, can hardly be measured.

MARY GARDEN.

Salome Dancer Refuses to "Tone Down" Her Act.

CHICAGO BARS "SALOME"

Mary Garden Declines to "Tone Down" Her Act.

Chicago, Nov. 30. — Following criticism from the Chicago police department, the production of "Salome," in which Mary Garden had twice appeared here, was withdrawn from the grand opera program for next Friday night.

The chief of police informed the management that "offensive" features, particularly the "head scene," should be toned down.

The flat of the chief of police was given to the opera company management, but was not communicated to Miss Garden until later.

"If they touch it or try to cut any of my performance, they can get some one else to dance it. I won't," said Miss Garden. "I won't do anything by halves. I suppose they want me to stand behind a screen and timidly speak the lines."

PENNSY ORDERS 150,000 TONS RAILS

Purchase Exceeds Any Made by Company Since 1906.

Philadelphia, Nov. 30. — The Pennsylvania Railroad company has placed orders for 150,000 tons of steel rails for delivery during the coming year.

The purchase exceeds any made by the company since 1906 and is nearly 13,000 tons more than was ordered last year.

The orders are apportioned as usual this year with the Pennsylvania Steel company, the Lackawanna Steel company, the United States Steel corporation, the Cambria Steel company and the Bethlehem Steel company. It was forecasted early in the month that the order would be for 150,000 tons. Later the "street" heard that it might be cut to half the amount, but in certain circles the order as made known was steadfastly predicted.

The company's orders for steel rails during the last six years follow: In 1909, 137,665 tons; in 1908, 149,873 in 1907, 163,797 in 1906, 128,075 in 1905, and 119,591 in 1904. The amount supposed to have been used in 1910 was 75,000 tons.

CUT PRICES SECRETLY

Steel Men Say "Gentleman's Agreement" Has Been Violated.

New York, Nov. 30. — It was learned that a meeting of the steel manufacturers has been called for today to discuss the question of prices.

A meeting was held some weeks ago, after which it was stated that the steel manufacturers had favored maintaining prices.

According to information obtained the meeting has been called because some of the steel manufacturers have not lived up to the "gentleman's agreement" respecting prices reached at the last meeting.

It was stated further that some of the steel manufacturers favored a reduction in prices, first, because prices were being cut secretly, and, next, because of the belief that an open reduction in prices would stimulate buying.

Besides the Steel Corporation, the list of companies which will be represented at the conference include Jones & Laughlin, the Lackawanna Steel company, Pennsylvania Steel, Cambria Steel and Bethlehem Steel.

Hangs Himself in Jail.

Wilkes-Barre, Pa., Nov. 30. — A man who had given his name as George Jones and George Herbert, of Scranton, committed suicide by hanging himself with his necktie in a cell at the police station in Plymouth, a suburb of Wilkes-Barre. He had been arrested twice in twenty-four hours for intoxication.

Two Killed by Gas.

Pawtucket, R. I., Nov. 30. — A loose gas fixture caused the death of John T. Brait and wife, mill operatives, found asphyxiated in their room.

Dry and clean sleeping quarters not only for dairy cows, but for hogs, are to be commended not only from the standpoint of the comfort but also the health of the animal, and in the end this means cold cash for the owner.

With the average wheat yield of the country but twelve or thirteen bushels, the dry farmer who summer follows his land every other year and produces thirty bushels of wheat "on" years still beats the average by a fair margin.

\$50,000,000 Deal May Not Be Concluded.

FEAR FOREIGN INFLUENCE

Celestials Are Unwilling to Accept a Foreign Financial Adviser and American Promoters Will Not Proceed.

Peking, Nov. 30. — Serious doubt that the projected loan of \$50,000,000 to China by an American financial syndicate will be finally concluded, is expressed in Peking. Numerous difficulties have arisen, among them being the unwillingness of the Chinese to accept a foreign financial adviser. Without such control it is said that the promoters are unwilling to proceed.

The present is recognized as a crucial period in the history of China. If borrowed millions are squandered, any calamity will be possible, even a revolution and the partition of the empire.

The Chinese have never been more sensitive to foreign usurpation of authority than they are now, and they look upon the proposition to give the foreign financial group control of the currency reform to which the loan was to be devoted as a further encroachment upon their integrity, of which the new senate and the parliamentary party throughout the country is especially jealous.

The opposition of the Chinese people, however, is not the only barrier to the consummation of the agreement. European banking groups who have been invited to participate with the Americans are not expected to agree to an American adviser to the Chinese government.

Furthermore, while the preliminary agreement stipulated that the Americans were to retain control of the bond issue, the British, French and Germans are expected to demand an equal participation, requiring also that they become signatories to the final compact.

If eventually successful, the loan is not likely to take the form of an American enterprise, much to the disappointment of the American community.

WOMAN'S DEATH A MYSTERY

Found Bruised and Bleeding on Street at Crisfield, Md.

Crisfield, Md., Nov. 30. — Beaten, bruised and bleeding from several cuts on the body and head, Mrs. Mary Roday, aged fifty-eight years, was found on Main street. She died at the Palm hotel about half an hour later.

Mrs. Roday was an employee of the Palm hotel. She was found by an unidentified man, who carried her to the hotel. She said that she had been forced to drink something from a bottle given her by a strange man on the street, when she became ill and fell.

SCOTT OFF FOR SOUTH POLE

English Explorer Sails From New Zealand.

Christ Church, New Zealand, Nov. 30. — The ship Terra Nova, bearing the British South Polar expedition, under the command of Captain Robert F. Scott, sailed from Port Chalmers for the Antarctic.

The Terra Nova sailed from London on June 1, and gradually worked her way south. Captain Scott, who joined the vessel in New Zealand, hopes to reach the South Pole some time in December of 1911.

WON'T INVESTIGATE

Absence of Specific Charges Against Frisco's Mayor Cause.

San Francisco, Cal., Nov. 30. — Mayor McCarthy's request that the grand jury investigate reports concerning his alleged acceptance of bribes of \$50,000 and \$100,000 respectively in municipal transactions was refused.

The inquisitorial body directed that a letter be sent the mayor informing him that in the absence of specific charges no investigation could be undertaken.

Dream Ties Up Mine.

Trinidad, Colo., Nov. 30. — A dream has resulted in the severe curtailment of the output of the Frederick Coal mine of the Colorado Fuel and Iron company, the output showing a decline of several hundred tons the last three days. Juan Hestas, a Mexican miner, dreamed a few nights ago that the mine blew up. He told the story to his fellow workers, and in less than an hour 150 men had quit. Some have returned, but many of the more superstitious have thus far refused to take up their picks.

Railroad Shops Burn.

Pottsville, Pa., Nov. 30. — The big shops of the Reading railway, covering several acres at Schuylkill Haven, were set on fire by sparks from a locomotive and almost totally destroyed. Over 1200 men will be thrown out of employment. A brisk wind blew the sparks for miles and for a time they threatened the destruction of Schuylkill Haven. The Pottsville fire department was called upon for assistance and responded. The loss in buildings and contents is \$50,000.

How would it do to arouse the interest of that bright, wide awake boy in the activities of the farm by buying him a pure bred sow at some sale this fall and allowing him to make what he can of the increase in her offspring? Have him keep accurate account of the cost of feed and care as well as of sales of pigs, letting him have for his own as a sum to start a bank account all he makes over and above the original investment and a reasonable rate of interest. Such an experiment may prove an eye opener in more ways than one.

MY FELLOW TRAMP

During the season of the white czar's first visit to Paris I was walking through Europe. I had tramped through Switzerland and climbed the Alps and was now about to descend, intending to make my way to Paris to be present at the great reception.

Pausing to take a last view from a great height, I sat down on the grass and fell to dreaming. I was recalled to myself by a soft voice behind me asking in French:

"Can you tell me, sir, how far it is to Montbard?"

I looked up expecting to see a woman. Instead the person who had addressed me was a young fellow apparently about twenty, though there was not a sign of hair on his face, and he might have been younger or older.

"Montbard? There is Montbard directly north of us. You can't distinguish the place, for it is twenty-five miles from us in a direct line."

"So far?" with an expression of disappointment.

"I am going that way. Rest awhile, and I will go with you."

The young man sat down beside me, and we chatted for half an hour. He was one of the most attractive persons I ever met. There was much enthusiasm in him. Everything in which he took an interest he took a deep interest. To one who has become blasé and finds most other people so such a one is very refreshing. Besides, he was very intelligent and displayed considerable learning. One thing about him amused me. He was very illogical. Everything was felt; nothing was reasoned. At least his reasons were always absurd. For instance, he expressed a firm belief in the divine right of kings because this right was necessary as a basis for their authority.

We started down the declivity, but had not gone far before we were overtaken by a diligence, and my young man got aboard. I continued to tramp, but I confess the rest of the journey seemed dull and uninteresting.

The next evening I reached Montbard, where I found railway transportation to Paris, but was obliged to wait several hours before getting a train. Going into a cafe to get something to eat, I seated myself at a table and was looking over the menu when a familiar voice asked, "What will monsieur have?" The last time I had heard that voice was when my tramping companion bade me adieu before boarding the diligence. Looking up, I saw a waitress standing beside me, and her face was as much like the tramp as the voice. She was looking down upon me with no sign of recognition, and for the moment I considered the likeness a mere coincidence. I gave her an order for supper, but before leaving the cafe I made up my mind that I was not mistaken—the waitress was really my companion of the day before.

A week later while in Paris, where I had many friends, I attended a reception at the house of a prominent American banker, who then lived near the Bois de Boulogne. The czar had arrived, and all Paris was talking about him. As I entered the drawing room I heard a lady, whose back was toward me, say in tones that were familiar:

"Without authority from heaven he would have no more right to rule than you or I."

Moving to a position where I could catch a view of her face, I saw—my tramping companion, the waitress of Montbard.

"Who is that lady?" I asked of my host as soon as I could find him.

"The Countess Nichalowsky."

"A Polisher?"

"Yes."

"Please present me."

The countess received me graciously, but without the slightest sign of recognition. I was fully aware that any reference to our former acquaintance would not meet with favor and if persisted in would be resented. I therefore refrained from mentioning either of our meetings, but led the conversation into the same channels as when we were resting on the Alps. Every topic she handled differently from her treatment of it at that time, but with even greater brilliancy. When I begged for permission to call upon her she said, "I am very sorry, but I leave Paris tomorrow at dawn."

I returned to America by steamer from Cherbourg. I am troubled with seasickness and kept my room till the voyage was half finished. Then one day, the weather being delightful and the sea smooth, I took my steamer chair and my rug to the deck. I had scarcely emerged from the companion-way when I was startled at seeing seated before me my tramping friend of the Alps, the waitress of Montbard, the Countess Nichalowsky. I had at least a right to recognize the last named personage and exclaimed:

"Why, countess!"

My words were met by a cold stare.

"You are mistaken, sir," she said in tolerable English. "You address Mme. Bourdaloue of Southampton."

I apologized and passed on. The lady did not come on deck again during the voyage, but when we were docked I took a position where I could see her as she went ashore. Her maid first went on to the dock, walked back and forth with her eyes well open, then made a sign, whereupon the mistress followed.

Curiosity led me to Pinkerton's to make inquiries. They told me that they had been advised of the coming of the Countess Nichalowsky, a Polish nihilist, but too late. A plot had been discovered to assassinate the czar on his way to Paris, but had failed. The countess was implicated.

VALUE OF PLAYGROUNDS.

How They Help in Making Children Good Citizens.

Children, as well as their elders, can help in making towns attractive by keeping their home surroundings clean and neat, by refraining from throwing rubbish and paper on the streets and in many other useful ways. But to accomplish this a great deal depends on the character and training of children.

Healthy, pure minded and carefully trained youngsters usually prove the best town improvement workers, and anything that can be done to benefit their health and morals should be encouraged. Public and private playgrounds have been found to be very helpful, and in the Los Angeles Times George E. Bettinger tells as follows of the benefits children have derived from playgrounds in Los Angeles:

"The playground cannot be excelled as an instrument in clearing the

cases. If he reads some of the stories who are complaining of its being dull he immediately gets those clerks busy getting out old goods, arranging them in a manner that he can carry on a cleaning up sale to advantage.

There is always lots of work to do. How many times do we find merchants who complain of dullness sitting inside and vainly endeavoring to look through windows covered with dust and dirt! How many times do we find the man who says there is nothing to do looking at a display of dirty goods in the showcase!

Don't you forget it—if you have any business to look after you have something to keep you busy all the time. Nothing like keeping busy about the store. It is sure to pay in the end. Even the novice can keep busy reading some good trade paper and posting up on commercial ideas and make a winning thereby.

No Longer an "Eyesore."

Columbus, Ind., became metropolitan in a twinkling when Mayor Charles S. Barnaby turned on the water in the fountain that graces the center of the new City park and Louis J. Scheidt, president of the Commercial club, turned on the colored electric lights in the fountain. Hundreds of people saw the formal opening of the park. The new park is situated where the vacant city square owned by the Pennsylvania lines used to be. A year ago it was an eyesore to the city. Now it is graded, flowers bloomed in the beds last summer, there is a big fountain playing in the middle, inviting seats are placed along the cement walks, lights mark the entrances and the circle around the fountain, and 150 maple trees are growing rapidly for the first season. The park was furnished by public subscription, and C. J. Rush, chief engineer at the waterworks, gave the fountain.

Billboards and Landscape Views.

In many eastern cities and towns there is just now an increasing activity of the crusade against billboards, and, strange to say, many of these fights on the part of the cities and towns are directed against the billboards in the country—along the roadsides—where they mar or hide beautiful natural landscapes. Increased travel through the medium of the automobile and suburban trolley lines is largely responsible for this increased activity against an inexcusable evil.

A man who employs farm labor doesn't need to be with his employees more than a couple of weeks to form a pretty definite opinion as to those men having the stuff in them to make sufficient headway some day to own farms of their own. The hired man who is slack, indifferent as to how he does his work and soldiers when the boss isn't looking, it is pretty safe to assume, will continue to be just this kind of unsatisfactory help all his days. If he should by chance have a wife and children dependent on him it is fair to assume that the former will have to take in sewing and wash to earn enough money to clothe and feed the children. This chap is not only a worthless stick for any man to hire, but a poor excuse as a husband and provider and of little or no worth in the community in which he lives.

"NOTHING TO DO."

Dull Times Not Discouraging to the Man Who Keeps Himself Busy.

Nothing wins so well as constant work. Often we hear a merchant complaining about dull times. Perhaps his neighbor is doing a rushing business, for the simple reason that his neighbor keeps busy. If customers are not coming in so rapidly as he might wish the busy man takes time to get busier and devises some new scheme to bring trade to the store.

Perhaps he busies himself in rearranging his goods in attractive manner on the shelves and in the show-

(From the American City, New York.)

streets of boys and girls and furnishing them with a place to spend their leisure hours. The lessons learned here do more toward making good citizens or books can do. These lessons of law and order are imbibed as the boy goes about his play. They become a part of him, and he obtains the true essential ideas of good citizenship. An incident that happened in Los Angeles will show the efficiency of the playground in taking the boys off the streets. In a certain part of this city it had been the custom of the police department to put on two extra officers when the summer vacation of the schools began. This was necessary because it did not take long for the children to get into mischief. The year that the playground was opened the force of officers was increased, as usual; but, much to the surprise of the police, they were not needed and were removed in less than two weeks. This was made possible by the playground. The children went there instead of loafing around the streets and getting into trouble.
